Advisory:

- No Index or Search Feature seems available
- Must keep your own record of your stich addresses
- It seems to be a bandwidth or "memory hog"

Both **Pinterest** and **Stich.it** are fairly intuitive, easy to use and come with plenty of help to get you started, especially after you have time to work with them today.

This workshop will allow you approximately 30 minutes per site to explore and get started. While Pinterest requires you to obtain a free account, Stich.it *does not*.
